

*"The Lord is my shepherd, I lack nothing." Psalm 23:1*

## **3B April Newsletter**

Dear Parents,

Spring is almost here! I hope you all had a relaxing and restful Spring Break. It was wonderful to connect with many of you during interviews and share about your child's learning. I am looking forward to another great term ahead!

### **Language Arts**

We continue to practice handwriting of lower-case letters. This month, we will be celebrating our short stories by publishing them and then moving on to a unit on Poetry. We will enjoy reading various types of poems and creating our own. Students will also begin learning keyboarding skills with the program All the Right Type.

### **Math**

In math, we will continue our *Geometry* unit and then begin learning about measurement. We will also continue practicing quick recall of multiplication facts to 100. Students can begin working on their math review booklet for this term. They can bring in their completed math booklet anytime in June to earn a prize.

### **Science**

We had a wonderful time applying our learning about energy at our Simple Machines in-school field trip! A big "thank you" to the parents who volunteered! Now that students have completed the Energy unit, they have begun the Earth's Systems unit. Students are learning about changes to the Earth's surface.

**Please check the calendar for other dates to remember.**

Blessings on your month,

Mrs. Shawna Jenkins & Mrs. Janelle Hay
